

below are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-f), and Federal Surface Water Criteria:

Name and Address of Applicant	Receiving Stream	Type of Discharge
Air Products Mfg Corp. P.O. Box 12291 Wichita, KS 67277	Ninnescah River via Spring Creek via DryCreek via Unnamed Tributary	Process Water and Cooling Water

Kansas Permit No: I-AR94-PO18 Federal Permit No. KS0080659
Facility Location: 6601 S. Ridge Road, Haysville, KS 67060

Proposed Action: This action consists of modification of an existing NPDES/Kansas water pollution control permit for an existing facility. The modifications include the addition of additional multimedia reactive filters for iron and manganese removal and a nanofilter system to reduce the hardness in the process water causing scaling in the Class I disposal well. Process wastewater is disposed of through the Class I disposal well and via discharge to surface waters of the state. The modifications will result in an increase in backwash water from the multimedia reactive filters and the nanofilter system. An antidegradation study has been reviewed and approved by KDHE for the increased flow.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision-making process. Comments should be submitted to the attention of the Livestock Waste Management Section for agricultural-related draft documents or applications, or to the Technical Services Section for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft documents or application notices received on or before April 30 will be considered in the formulation of the final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-11-051/057, KS-Q-11-023) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the Secretary of Health and Environment will issue a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available on the Internet at <http://www.kdheks.gov/feedlots>. Division of Environment offices are open from 8 a.m. to 5 p.m. Monday through Friday, excluding holidays.
